ATTN: DOCKET NO. 2007-0E-01

Dear Sir:

Please accept this document as my Request for Rehearing on the Mid Atlantic Area National Interest Electric Transmission Corridor. I believe that the Department did not take the appropriated measures required to investigate and determine that this kind of a designation is best for our nation and especially those people who will be directly affected by the NEITC.

When I look at the map at the department's version of the corridor, I'm astounded, appalled, and frightened! According to Webster's Universal English Dictionary, a corridor is: "a narrow passageway or route..." I submit to you that designating 50 plus counties in the state of Pennsylvania as part of the NEITC is not a corridor at all.

My concern is that if you have failed at grasping the concept of a corridor, how can I have confidence that you are making decisions based on good and accurate research? This designation has far reaching affects well into the future of this nation and her people. Don't you think these people, the ones who are the most impacted by this NEITC, deserve the right to be heard at a rehearing?

Please hold a Rehearing on the Mid Atlantic Area National Interest Electric Transmission Corridor. Saying yes to a Rehearing is what is best for the people and this nation.

Sincerely,

Kimberly McCoy-O'Donnell
